HORSE-TRAINER RELAX

Beyond the massage from the seesaw moving floor, it also treats the top line and back of the horse with heat from the IR lamps in a solarium unit over the horse's back

HORSE-TRAINER RELAX is a kind of massage machine for horses

HORSE-TRAINER RELAX trains and builds up the muscles of the horse

Total well-being with effect

HORSE-TRAINER RELAX is a unique way of increasing the blood circulation in a comfortable and relaxing way for the horse,whether it is as rehabilitation after injuries or preparation for work or massage of the horse after work. HORSE-TRAINER RELAX is an innovative product, whether it is for training or preparation for a competition or rehabilitation after an injury and is thus the optimum solution for your horse.

Increased blood circulation and well-being for your horse!!!

HORSE-TRAINER RELAX is a kind of massage machine for horses. It can be used both in the professional training stable, by the ambitious elite rider, in the trot or gallop stable, and at retraining centres for all kinds of horses.

HORSE-TRAINER RELAX is for the horse a comfortable and relaxing way of increasing the blood circulation and relaxing the musculature. Beyond the massage from the seesaw moving floor, it also treats the top line of the horse and back with heat from the IR lamps in a solarium unit over the horse's back for total well-being.

Why HORSE-TRAINER RELAX

HORSE-TRAINER RELAX increases the blood circulation without load.

HORSE-TRAINER RELAX increases the healing of injuries and reduces the retraining period. It also reduces the rehabilitation time after races for quicker return to max. performance.

HORSE-TRAINER RELAX trains and builds up muscles.

Regular use of HORSE-TRAINER RELAX enhances the absorption of food and increases the digestion.

HORSE-TRAINER RELAX is a perfect solution for drying horses after work or for making them ready for races and sports.

HORSE-TRAINER RELAX provides increased well-being for the horse.

HORSE-TRAINER RELAX

The floor is vibrating and massages the horse with seesaw motions up through its body. Here you can see the vibrations in the red water

The computer system of the machine with mounted emergency stop

Pre-programmed with 10 fixed programs

The display shows speed, remaining time

Adjustable safety rear bar

Massage from the floor and sun on the back

HORSE-TRAINER RELAX massages the horse from the floor with seesaw motions up through its body. The machine is equipped with a unit making the floor seesaw in a way, so that the horse will not stand on stiff legs and thus not achieve the desired effect of the massage. This treatment makes the massage influence the musculature of the horse and with the solarium, the horse will get IR sun on its back loosening possible tight and aching muscles. Furthermore, it increases the blood circulation.

Touch display

HORSE-TRAINER RELAX is computer controlled. The machine has been pre-programmed with 10 fixed programs, which are controlled from the control box by means of a finger touch display. These 10 programs have different lengths of time and different seesaw motions. These programs cover most training needs.

The computer can furthermore be programmed with up to 100 individual programs.

During operation, status of the speed of the seesaw motion is displaced as well as remaining time of the running program.

The computer can register up to 100 horses in the name register.

The adjustable safety rear bar can be operated from the outside of the machine.

HORSE-TRAINER RELAX is manufactured according to current regulations, and complies with EU directives and harmonized standards.

HORSE-TRAINER products are of course CE–approved.

HORSE-TRAINER RELAX is incredibly reliable, and the machine has been fully electroplated, which makes it very resistant.

HORSE-TRAINER RELAX is very easy to maintain.

Specifications:

Machine dimensions	250L x 130W x 280H to 300H cm
Full length installed	350 cm
Weight	500 kg

Electrical data:

Rated voltage	3 x 400VAC+N+PE 50 Hz
Rated current	16A
